# How We Do Business and Some of the Services We Offer

We try to do business the way you like it done—not just to suit us.

## Please Read Carefully

### Consultation and Making of Plans

For suggestions and advice by mail or at our office there is no charge. If you will bring your property measurements and sketches or photos, we will be pleased to help you. Where simple sketches or plans are required locally, there is no charge.

However, as the time required to visit your property, take measurements and notes and prepare a detailed survey and plan depends upon distance and other conditions, it is impractical to quote costs beforehand. Oftentimes the cost of this service can be deducted if the resultant order justifies it.

**Photographs:** If you are contemplating buying large trees and it is inconvenient for you to come to the nursery to see them, we will send you photos. We use the new Polaroid-Land camera that takes and develops a picture in one minute, so they can usually be mailed to you the same day your request is received.

**Prices** quoted cancel previous quotations, are subject to prior sale, and to change without notice. Prices are F.O.B. E. Patchogue. Unusually heavy specimen plants will be priced proportionate with their values.

**Terms** are cash, excepting established accounts, to which we will gladly extend 30 days credit, or longer if specific arrangements are made at time of sale. Interest at 6% a year is charged on overdue accounts.

**Balling and Burlapping (B&B):** The specification "B&B" in this list signifies digging with ball of earth enclosed in burlap, which, where indicated, is included in the price. For digging all other plants B&B there is an additional charge as follows:

### SCHEDULE OF BALLING CHARGES (B&B)

#### Shade and Flowering Trees, Fruit Trees, and Flowering Shrubs

Height		*Caliper	
18-24"	\$ .40	1-1 1/4"	\$ 2.00
2-3'	.50	1 1/4-1 1/2"	2.50
3-4'	.65	1 1/2-1 3/4"	3.25
4-5'	1.00	1 3/4-2"	4.00
5-6'	1.50	2-2 1/2"	4.50
6-8'	2.50	2 1/2-3"	6.00
8-10'	3.75	3-3 1/2"	8.00
10-12'	5.50	3 1/2-4"	10.50
		4-5"	16.50
		5-6"	21.00
		6-7"	27.00
		7-8"	35.00

\*Caliper means diameter of trunk 6" above ground on trees up to 6" caliper and 12" above ground on larger trees. Wherever given, use caliper sizes to determine B&B charges.

**Vines and Climbing Roses**

Small	\$ .50	Large	\$1.00
Medium	.75	Extra Large	2.00

**Lengths of Runners**

2-3'	\$ .50	6-8'	\$3.00
3-4'	1.00	8-10'	4.00
4-5'	1.50	10-12'	6.00
5-6'	2.25		

**B&B Platforms:** Charges for platforms will be rebated or credited to your account when they are returned to us in good condition at your expense. Send them by prepaid motor or rail freight if it is inconvenient for you to deliver them. Our platforms have a brass nameplate, so we will not accept others in exchange.

**Platforms Charges**

24" square	\$3.25	48"	\$15.00
30"	4.50	54"	20.00
36"	7.50	60"	30.00
42"	10.00	66"	40.00
		72"	50.00

**Packing and Boxing,** where necessary, will be charged for at cost.

**Shipment:** We ship by our own trucks, motor and rail freight, railway express, and parcel post. Delivery by our own trucks expedites arrival and insures a minimum of handling. Delivery beyond local limits is charged for at cost.

**Approximate Delivery Charges for Full Truckloads  
to a few Points in our Territory**

East Hampton, L. I.	\$25.	White Plains, N. Y.	\$35.
Lynbrook, L. I.	20.	Stamford, Conn.	40.
Great Neck, L. I.	25.	Paterson, N. J.	40.
Part truckload orders at proportionate rates.			

**Planting:**

We can furnish experienced planting foreman and plantsmen if you wish. The cost of this service is more than offset by the satisfaction of knowing that your plants have been given the right start.

**Big Tree Moving:** We have the skill and equipment necessary to scientifically move trees up to 12" trunk diameter. Don't entrust the moving of a loved tree to incompetent workmen with inadequate equipment.

**Guarantee:** We guarantee every plant to be true to name, up to grade, and in good condition when it leaves the nursery. We will replace without charge any proved otherwise, provided it is reported promptly. We will replace at the first proper planting season at one half original cost any plant planted by us in a location approved by us that dies within six months, provided it has received proper care and the account has been paid

in accordance with our terms. The customer pays for delivery and planting at cost. This guarantee does not cover losses due to droughts, storms, severe winters, insect injury, disease, or other factors beyond our control. Should we not have the same plant in stock, we reserve the right to substitute the nearest variety and size of equal value. We do not guarantee plants transplanted from one location to another on customer's property.

As there are many factors beyond our control after plants leave the nursery, we cannot be wholly responsible for losses. Once a plant is on your property we lose control over it, so, since your care will largely determine whether it lives or dies, we feel that you should assume part of the responsibility in the event it dies. However, during 1948 and 1949, despite serious droughts and other adverse weather conditions, we were called upon to replace less than 1% of the many thousands of trees and shrubs we planted for our customers. Ask us for our latest pamphlets giving complete information on planting and care of trees and shrubs.

**Visitors** are welcome at all times. You are cordially invited to walk or drive over our several miles of good roads and inspect our collection of hardy plants.

**Responsibility and Standing:** We refer you to the commercial agencies or satisfied customers in your vicinity, a list of which we will gladly send you on request.

**Business Hours:** We are open six days a week (not on Sunday) from 7 A.M. until 5 P.M. during our shipping seasons, and from 8 A.M. until 4:30 P.M. during summer and winter.

Plants are listed alphabetically by botanical names throughout, except for the fruit section at the back of the price list. For lists of flowering shrubs, shade trees and other groups, see index.

**Evergreen Contours:** Letters following names of evergreen conifers correspond with those shown in box below and refer to habit of growth at maturity.

BP—Broad Pyramidal  
NP—Narrow Pyramidal  
LS—Low Spreading  
US—Upright Spreading  
C—Columnar  
G—Globular

**Numerals** following plant names indicate approximate height of plant at maturity.

**pH:** For those buyers who are concerned with the degree of acidity or alkalinity preferred by plants. We will gladly analyze your soil for its pH and nutritional requirements. Let us know if you want us to take soil samples, or mail us a sterile sample taken from 2" below ground level.

Mediacid	pH 4.0-5.0
Subacid	pH 5.0-6.0
Minimacid	pH 6.0-7.0
Minimalkaline	pH 7.0-8.0

Plants that are new to this price list and were not listed last year are shown in a box  to call them to your attention.

#### Block No.

#### *Abelia grandiflora* 3' GLOSSY ABELIA

Shiny dark green foliage. Profuse pink flowers from June-July to frost. Sun or partial shade. Moist soil. pH 6.0-7.5

9	Small (spread)	B&B	\$ 1.35
12	Medium	B&B	1.80

# FRUIT TREES AND BERRY PLANTS

**Note:** Certain varieties are self-unfruitful, but will bear fruit if planted with another variety. It is always good practice to plant at least two different varieties of each kind of fruit. Ask us for detailed information concerning planting distances, orchard layouts, spraying, feeding, and pruning.

Frankly, our stock and service are for those discriminating buyers who know and care about the difference between quality and the usual run.

We don't know of any other source of supply that offers the buyer of landscape nursery stock **ALL** of these advantages:

**Current** catalogs, price lists, and other helpful literature always available

**Prompt** attention to inquiries

Facilities for preparation and presentation of plans and sketches to better enable you to visualize proposed plantings

Free photographs of any particular tree you are interested in—sent to you the same day your request is received

Each plant individually selected and marked to suit your particular requirements

Careful digging, wrapping, and loading by experienced men who **know how** to handle plants

**On-time** deliveries by trained drivers and specially equipped trucks

Experienced plantsmen, using most modern methods and materials, to do your planting and transplanting

A fair and clearly stated guarantee

Periodic inspections of your plants bought from us and verbal or written instructions concerning their care

A real interest in your plants and planting problems and the desire to help you solve them

In this new price list you'll find a host of the better landscape varieties from which to choose. If you don't find what you're looking for, phone or write us. Perhaps our buying experience has taught us the source of that hard-to-find plant variety.
